## *Come . . . See for Yourself!*

Up here in Jasper National Park we're ready to give you the best vacation you've ever known. Everything we have is yours to enjoy, and that everything covers a lot of ground—hundreds of miles of highways and trails in the glorious Canadian Rockies, horseback riding, motoring, hiking and climbing; fishing in hurrying white streams and shimmering lakes; swimming and canoeing, and even skiing; tennis and the kind of golf you dream about; air like wine. And in the midst of the indescribable, unforgettable mountains, Jasper Park Lodge, a modern hotel justly famous for its gracious hospitality. If you know Jasper, you'll want to go again. If yours is the joy of discovering it for the first time, the following pages will give you a few clues. Ask your Canadian National Railways agent for more. Then come and see for yourself!

## Spice to Enjoyment

When you visit a place like Jasper you don't go poking into history. What concerns you is not the past but the present, not antique buildings steeped in centuries of human miseries and splendors (and perhaps deficient in plumbing) but a modern hotel with hot water and good food, gracefully served; not archives and old bookshops, but a championship golf course; not narrow, cobbled streets, but wide motor highways and springy bridle trails; not picture galleries, but the real thing, the living panorama of mountains and valleys, rivers and lakes.

It might give spice to your enjoyment, however, to know that Jasper has its romantic yesterday as well as its thrilling today. If you don't count the Indians before the appearance of the White Man, its history began in the early days of the 19th Century, when David Thompson, the fur trader and explorer, went over Athabaska Pass to the Pacific. His route became the main thoroughfare of the fur brigades through the Rockies, and he was followed by a long line of adventurers including Gabriel Franchère and other Astorians; the missionary, Father de Smet; David Douglas, the botanist, and the artist, Paul Kane. They have left nothing behind but their names, but these you will find all over the Park.

One of the names from the old days is Jasper itself. It has nothing to do with a certain variety of cryptocrystalline quartz. It has no reference to the jasper which is mentioned in the Bible as one of the foundations of the New Jerusalem. It simply commemorates a yellow-headed fur trader from Missouri named Jasper Hawes. No one knows much about him or why he should thus be made immortal, but the name stuck, and it's a lucky thing he was the kind of fellow who was not called "Mr. Hawes".

*Golf Plus!* With a course always at the top of its form, you can't help being at the top of yours.

## *New Every Hour*

Statistics will interest you no more than history. But it may challenge your imagination to be told that Jasper is the largest national park in the world. Within its 4,200 square miles—an area greater than the State of Connecticut—that will give you an idea—are hundreds of miles of highways and trails.

The beauty of it is that, with so much developed, much more is still uncharted. Jasper has a boundless future. But you will not exhaust today's Jasper, not in a week, not in a summer. There is always more to see, more to do. And the everlasting mountains, always the same, are always different. They are minted afresh every morning; they are new every hour of the day.

Jasper is all yours, see it how you will. Ice-clad peaks, the wide panorama of valleys, swift rivers and tranquil lakes, flowery alpine meadows—they are all yours for the looking. There is no better way to see the mountains than from the back of a surefooted pony. Ride for an hour or two, or hit the trail for days, with a guide and a pack train, camping out at night under the stars. Or if riding isn't your dish, use your own legs—swing out with your rucksack on your shoulders, or take it in leisurely strolls. Climb, if you're an alpinist, or take Walt Whitman's advice—"loaf and invite your soul". See Jasper from the golf course, or from the soft cushions of an automobile.

However you take it, Jasper is yours and you will find it worth the taking.

# *Jasper Park Lodge*

The heart of this great national park is the town of Jasper, administration headquarters and railway centre, and—about three miles away—the Canadian National Railways famous summer hotel, Jasper Park Lodge. Both have the advantage of being situated in the widespreading Athabaska Valley: the mountains are all around but they never crowd so close as to give you that shut-in feeling.

The Lodge is a big hotel. It has accommodation for 650 guests. But it has no elevators. It doesn't need them, because it has no second storey. Indeed, the Lodge isn't a building at all—it is a village of bungalows.

Now here's a bright idea! The designers, instead of throwing themselves into conflict with the natural surroundings, decided that harmony was the thing. They built their hotel around the crescent of one of the bays of lovely Lac Beauvert, planting trees and gay flower gardens, spreading a green carpet of grass down to the water's edge, and they built it of peeled logs, taken from the mountains' own forests.

Yet everything you expect in a first class hotel is there. In from the trail, from the golf course or the tennis court, you may refresh yourself with a dip in the open-air swimming pool or you may soak the stiffness out of your muscles in a hot bath. After dinner—and the food is worthy of an epicure's palate—you may enjoy a concert, or a dance, or a motion picture show: play bridge, if you prefer, settle down with a book, or expand in conversation. All this if you can resist the outdoors, floating in a canoe on shimmering Beauvert; strolling around Lake Mildred; watching the changes in Pyramid Mountain, The Whistlers, or the eternally slumbering Good Old Man, as the evening shadows lengthen; reluctant to see the last of radiant Mount Edith Cavell.

Jasper Park Lodge in a jewelled setting clusters around Lac Beauvert with unforgettable peaks like the Colin Range and Old Man Mountain rising above it.

Don't these rooms look inviting? You sleep well, eat well and play well at Jasper Park Lodge. It was designed for your comfort.

Room service on wheels! Must you stay in your cabin instead of going to the main dining room? O.K.; there's a telephone in your room and the service is prompt and cheerful.

If you like, your family may have a bungalow to itself, a holiday home of your own.

A view of the Lodge grounds, from the flower garden, overlooking the swimming pool and the lake, to Mount Edith Cavell.

A joy to look at, a test of skill to play, the 6700-yard Jasper Park Lodge Golf Course is one of the finest on the continent and the 14th hole, shown here, proves it.

## *For Champions and Duffers*

It's not easy in Jasper, where you are surrounded by so many distractions, but if you're a keen golfer, the cloud shadows passing over the mountain ranges, the reflection of sky in clear waters, even the odd bear ambling over the fairway, won't put you off your game, for this is a championship course, one of the finest on the continent. The laziest duffer, not worrying about that par of 71, will enjoy it, too, for it has been so expertly designed that in all its length — 6,700 yards — there are no breath-taking steepes to climb, though it is a mountain golf course. In contours and distances, bunkers and water hazards it offers a challenging variety.

Its fairways and greens are perfect, its clubhouse—only a step from the Lodge—an invitation for relaxation at the game's end.

Here's the famous Totem Pole Trophy, awarded to the champion of the Golf Tournament, an annual event which for nineteen years has been a top attraction to amateur golfers.

Bing Crosby won it in 1947.

# *Journey to Angel Glacier*

Towering 11,033 feet, Mount Edith Cavell reigns resplendent over the Athabaska Valley. You see its white contour the moment you step off the train at Jasper station: you have a magnificent view of it across the lake from the Lodge. To see it is to dream of visiting it. You need not dream long, because a motor highway takes you to the foot of its Angel Glacier.

In the twenty miles from the Lodge, the highway, crossing the Athabaska, the Miette and the Astoria Rivers, and Portal and Whistlers Creeks ascends several thousand feet and opens to your eyes enchanting glimpses of distant snow-crowned peaks and glittering glaciers.

When you reach the end of your drive you may have tea beside the glacier. If you feel ambitious, you can scramble over the ice or climb down to the shore of the vivid Lake of Forgiveness.

Perhaps you will make plans for an alpine expedition to the summit of the great mountain itself. But even if you are content to admire Mount Edith Cavell from below, you will agree that it is a worthy monument to the heroic British nurse who perished in the First World War.

You will wander far over this world to find anything to match the loveliness and serenity of Maligne Lake in Jasper National Park.

## *You Will Never Forget*

You couldn't be blamed if you refused to believe Maligne Lake. To say that it is the largest glacial lake in the Canadian Rockies is to state a fact; to say that it is the most beautiful is to utter an opinion. Neither comment can come near its wonder. No words can add to its dignity; no photograph give you more than a hint of its grandeur. You must see for yourself, and seeing is believing.

Motor from Jasper Park Lodge to Medicine Lake, cross Medicine in a launch, motor from there to Maligne; or go all the way on foot or make Maligne Lake chalet your headquarters and see for yourself. When you get there, fish for trout, hike, climb, ski—or take a motor-boat trip the seventeen miles to the end of the lake.

Maligne Lake is walled in by a great crescent of colossal peaks, some of them rising precipitously from the water, and your eyes are dazzled by a score of glaciers. You will never forget the colour of the water. You will linger in dreams over the splendour and mystery of those massive, cloud-capped towers.

## Lens Trophies

How often, as the hours pass all too fleetly in Jasper National Park, will you wish you could hold them forever. You will carry away glowing memories. But you can do better than that. Don't forget your camera. Professionals—even Hollywood itself—find Jasper a happy hunting ground, and it is just as hospitable to the amateur.

The camera is the only "gun" allowed in this great wild life sanctuary, where you may stalk bear, deer, moose, elk, beaver, and even the shy mountain sheep and goat.

You don't have to leave the Lodge grounds to get beauty and action for your camera. But when you go out on the trail or take a motor trip—to Edith Cavell, to Maligne Canyon and Maligne and Medicine Lakes, to the Columbia Icefield—you will be confronted by such an embarrassment of photographic riches that you will never feel you have enough film.

"If only I hadn't run out of film!"  
Don't let this happen to you. Be prepared! You can buy films at Jasper Park Lodge.

If you want to climb mountains, you'll find peaks everywhere to challenge your skill and stamina.

## *Best Foot Forward*

Jasper offers every challenge the most expert alpinist can ask. Seventy per cent of the highest summits lie within the Park or may be reached with Jasper for a base. Alpine club camps are held frequently in Jasper and independent climbers turn up every year.

For those who are not ambitious to climb but who like hiking, Jasper has everything—hundreds of miles of trails, short trips and long ones.

The rugged Ramparts and the brilliant lakes of the Tonquin Valley are  
"breath-taking in beauty and in scope."

# Miles of Trails

Go on rubber-tired wheels, go on your own two feet, but, unless you're allergic to saddles, the best way to see the mountains is from the back of a pony. You can cover more ground more easily that way than in a hike, you can go places where a car will never take you and come to really intimate terms with the slopes and the meadows and the passes high above the treetops.

Hit the Sawdust Trail, through evergreen forests, along lake shore and river bank, up to the bench below Signal Mountain . . . ride along Maligne Canyon . . . head for the view from Old Fort Point . . . visit Caledonia Lake, Pyramid Lake or Wabasso . . . these are all short rides, from two to five hours. Enough to loosen you up for a four-day trip to Maligne Lake, by way of Medicine, and back over Shovel Pass and along the Skyline Trail. Or make your pace for the Tonquin Valley and the rugged Ramparts.

If you want more, you may arrange for trail trips of a week or longer, taking you into the farthest reaches of the Park. The chalets and campsites are strategically placed for rest and outlook. The ponies are dependable, the guides know what it's all about.

Even if you've never been on a horse, you'll enjoy a ride along the famous Sawdust Trail.

Rivers", for out of its massive glaciers spring streams that swell into mighty rivers carrying fertility to a vast terrain and pouring into three oceans. Mile-wide Saskatchewan Glacier, reaching six and a half miles down into the valley, sends waters to Hudson Bay and the Atlantic. Out of Athabaska Glacier go streams that travel 2,000 miles to the Arctic, by way of the Athabaska, the Peace and the Mackenzie. Still other waters from the Icefield find their way to the Columbia and the Pacific.

Not so long ago, the only way to reach this magnificent world of glittering mountains was to thread your way strenuously through the wilderness by pack train. Today you may go in comfort by automobile. The 75 miles along the Jasper-Banff Highway from Jasper Park Lodge are crowded with thrilling scenery, and the Icefield is the climax. If you cannot tear yourself away, you will find a pleasant chalet at the foot of Athabaska Glacier, your headquarters for hikes and rides and spectacular summer skiing.

The Columbia Icefield Chalet stands in the midst of alpine splendor at the foot of the Athabaska Glacier.

## *"Mother of Rivers"*

The Seven Wonders of the World are out of date. The Sphinx still gazes across the immemorial sands, but where is the Colossus of Rhodes, and who has seen the Hanging Gardens of Babylon?

It's high time we made a new list and if we did, the Columbia Icefield would surely have a place in it. Covering an area of more than 110 square miles, it is the largest and most impressive body of ice outside the Arctic Circle. Its average elevation is between 9,000 and 10,000 feet, its loftiest peaks towering to 11,000 and 12,000. The Columbia Icefield is the roof of the Canadian Rockies, the geographical centre of the water system of a quarter of North America. Not without reason has it been named "Mother of

# *Whatever the lure, it's Fun!*

Izaak Walton never knew better fishing than the fishing in Jasper National Park. If his kindly shade could hear about it, he'd be out of heaven in a jiffy and trying his hand with one of those—to him—new-fangled fly rods.

You can have the fun he's missing . . . white water, still lakes, the best of sport in the midst of green forests and shining mountains.

There are two kinds of fish native to Jasper. The Rainbow Trout and the Dolly Varden. You don't have to go far from the Lodge for the Rainbow but it is biggest and most plentiful in Amethyst Lakes in the Tonquin Valley and in the Astoria River which runs out of it, a short day's trail ride from the hotel. The best Dolly Varden fishing is in Jacques Lake.

A non-native, but plentiful and sporty, is the Eastern Brook (Speckled) Trout which has given the waters of the Maligne River and Maligne Lake a world-wide angling reputation.

On the Maligne River, a quarter of a mile from its junction with the Athabaska, is the Jasper Fish Hatchery, which has 25 troughs with a capacity of 750,000 eggs. This is a great attraction to tourists, but to fishermen it is treasure trove. For out of these troughs and the rearing ponds the fingerlings go to swell the fishy population of more than a score of lakes and streams. In addition to the species mentioned Jasper also boasts of Lake (grey) Trout. They are yours for the taking in Pyramid and Patricia Lakes. If you meet Mr. Walton's ghost in waders don't be surprised.

## *You Meet Nice People*

Jasper Park Lodge is rich in social amenities. Motoring, riding, golfing, swimming in the heated pool, canoeing on the lake, playing tennis, strolling in the gardens, dining, dancing, playing bridge in the lounge, you make new friends. Here's a place for romance to flourish!

# Monarch of the Rockies

Next door neighbor to Jasper National Park is Mount Robson Provincial Park, British Columbia. If you're a big game hunter, you'll find, as hundreds of others have discovered, that Robson is a sign post to superb hunting country. Reliable guides, who know the territory as well as the palms of their skilful hands, are here, as at Jasper, to lead the way to sheep and goats, to moose and bear and the other denizens of the mountains.

But you don't have to hunt to enjoy Robson. The peak which gives the park its name is the loftiest in the Canadian Rockies—12,972 feet—and it is every inch a king of mountains, imperial in eternal snow and ice.

You may get a glorious view of it from the Canadian National Railways, as you travel between Jasper and Vancouver or Prince Rupert. The train stops so that you may get a good view. For full value, leave the train here and walk or ride past Kinney Lake, along the Valley of a Thousand Falls, past the roaring Emperor Cataract and across the plateau to Berg Lake. This brilliant mirror is well named, for Tumbling Glacier pours down the massive mountainside into the water and on warm summer days you will see icebergs floating in the lake. You owe it to yourself to see Mount Robson.

*R. H. Ayre*

Mount Robson, highest peak in the Canadian Rockies, is the embodiment of all that man's mind thinks a mountain ought to be.

## SIGHTSEEING MOTOR DRIVES

*NOTE:—Starting point of all sightseeing drives—Main Entrance, Jasper Park Lodge.*

*The Station Agent at Jasper will make arrangements for railway patrons, who are not guests of the Lodge, to be taken from the station, in Jasper Park Lodge motor equipment, on any of the scheduled drives, Nos. 1 to 8, inclusive. Regular rates will apply.*

**Departure hours and schedules for these drives have been carefully planned to permit visitors to view without haste the scenic wonders of the Park.**

**No. 1: General Drive — Thirty-five miles return.** Motors leave the lodge at 9:30 a.m. and 2:30 p.m. Time, approximately 3 hrs. Bus fare per person, \$4.00 plus Gov. Tax, .60. This drive embraces a wide variety of valley, lake, canyon, and mountain scenery and includes a visit to the Fish Hatchery and a side trip to see the bears. The route, after following the Athabaska River, skirts Lakes Annette and Edith before gradually ascending the roadway to Maligne Canyon. From this vantage point the tourist stands in awe before the snow-capped grandeur of lordly mountains and the mighty sweep of the Athabaska Valley, which loses itself in endless vistas of alpine beauty. Maligne Canyon, a tremendous gorge descending to a depth of 188 feet, and remarkable for its potholes, is a never-ending source of wonder and amazement. On the return journey the Athabaska River is followed to its junction with the Maligne River where a stop is made to view the Government Fish Hatchery; from here the route continues over the Athabaska River bridge to join the Main Highway to Jasper, where a glimpse is obtained of "the Raven", one of the largest totem-poles in existence. Continuing along to the foot of Pyramid Mountain and passing en route Lakes Patricia and Pyramid, the drive again runs through Jasper before terminating at the Lodge.

**No. 2: Glacier of the Angel (Mount Edith Cavell) — Forty-four miles return.** Motors leave the Lodge at 9:15 a.m., and 2:30 p.m. Time, approximately 3 hours. Bus fare per person, \$4.00 plus Gov. Tax, .60. Offering excellent motoring, this drive by a course of wide-sweeping switchbacks reaches an altitude of nearly 2,000 feet above the floor of the valley and gives the tourist an ever-changing series of strikingly beautiful panoramas. The highway, terminating at the foot of the famous glacier, affords an excellent view of this vast field of living ice. *The highest point reached on this drive is 6,300 feet above sea level.* Light lunches and refreshments can be obtained at the Tea Room near the foot of the Glacier.

**No. 3: Miette Hot Springs and Fiddle River Canyon — Eighty miles return.** Motors leave the Lodge at 9:00 a.m. Time, approximately 4 hours. Bus fare per person, \$6.00 plus Gov. Tax, .90. The route, after skirting the shore of Lake Mildred, follows the Athabaska River, which it crosses to join the Inter-Provincial Highway, whence it extends for miles down the Athabaska Valley to Jasper Lake and beyond to Punch Bowl Falls. A short stop is made to view this unique waterfall, and then the trip continues along the rim of the Fiddle River Canyon for another eleven miles before finally reaching the famous Miette Hot Springs. At this point, hot sulphur spring water, varying in temperature from 79 to 128 degrees F., comes boiling out of the mountain side. Motors will remain long enough to permit bathing in the pool. *The highest point on this drive is 4,510 feet above sea level.*

The Miette Hot Springs consist of three main springs, which issue from the rocks along the banks of Sulphur Creek. The springs, non-volcanic in nature, owe their heat to chemical action, caused by surface water coming in contact with certain minerals in the limestone rock formation. The combined flow of the three springs reaches a total of approximately 170,000 gallons every 24 hours.

*The Swimming Pool and the Steam Baths at Miette Hot Springs are operated by the National Parks Department.*

*The rates are:*

Swimming Pool — when bathing suit and towel are supplied by the Department: adults, 35c; children, 25c. When bathing suit and towel are supplied by bather: adults, 25c; children, 15c. Steam and Plunge Baths — 50c. per person.

**No. 4: Columbia Icefield (Jasper-Banff Highway) — One hundred and fifty miles return.** Motors leave the Lodge at 9:00 a.m. Time, approximately 7 hours. Bus fare per person, \$10.00 plus Gov. Tax, \$1.50. Minimum, 5 persons. The drive follows the route of the Mount Edith Cavell Drive to a point beyond the crossing of the Astoria River, whence it continues along the valley of the Athabaska. From here the route penetrates through the very heart of the Canadian Rockies to the largest and most impressive icefield outside the Arctic Circle. With an estimated area of 110 square miles, the average elevation of this amazing icefield is between 9,000 and 10,000 feet, which because the waters of its melting glaciers travel thousands of miles to three oceans, the Atlantic, the Pacific, and the Arctic, has been beautifully named "Mother of Rivers". **Unquestionably, this is America's Greatest Scenic Drive.** *The highest point reached on this drive is 7,000 feet above sea level.*

This trip is also operated as an afternoon and evening drive, leaving the Lodge at 2:30 p.m. It is arranged for those who wish to see the wild animals which in the evening twilight come down from the mountains and forests to the rivers and streams along the route of this great highway.

**No. 5: Geikie Twilight Drive — 25 miles return.** Motors leave the Lodge at 7:00 p.m. Time, approximately 2 hours. Bus fare per person, \$3.00 plus Gov. Tax, .45. This drive, sometimes referred to as the Sleepy Hollow Drive, passes through the town of Jasper and proceeds along a beautiful road winding through a quiet valley with here and there a contrasting noisy waterfall tumbling down to join the Miette River; the route continues West following the Miette River along the base of Whistlers Mountain to Geikie.

**No. 6: Maligne Canyon — Medicine Lake (auto-motor boat) — 40 miles return.** Motors leave the Lodge at 1:30 p.m. Time approximately 4½ hours. Cost per person, \$6.00 plus .30 Gov. Tax on Boat trip. The route is over the road to Maligne Canyon and beyond for fourteen miles to the lower end of Medicine Lake; at this point passengers are taken on a scenic motor-boat cruise across the lake. A unique feature of this lake is that, although thirty feet deep during the summer, it completely disappears through invisible outlets in the Fall of the year.

**No. 7: Maligne Canyon — Twelve miles return.** Motors leave the Lodge at 10:00 a.m. and 2:30 p.m. Time approximately 1½ hours. Bus fare per person, \$2.00 plus Gov. Tax, 30c. This canyon, into which the Maligne River plunges through a gorge 188 feet deep, ranks among the most extraordinary in the Canadian Rockies. The route lies over a gradually ascending roadway from which the tourist obtains magnificent views of lordly mountains and charming vistas of the Athabaska Valley. The fish hatchery on the lower Maligne River beyond Lake Edith is also of interest.

**No. 8: Punch Bowl Falls — "A Twilight Drive"**— Sixty miles return. Motors leave the Lodge at 7:00 p.m. Time, approximately 3 hours. Cost per person, \$3.50 plus Gov. Tax, 53c. The route, after skirting the shore of Lake Mildred, follows the Athabaska River, which it crosses to join the Inter-Provincial Highway, whence it extends for miles down the Athabaska Valley to Jasper Lake, and beyond to

Punch Bowl Falls and Valley. Affording a very wide variety of mountain scenery, this trip is highly recommended as an evening drive, for after sunset, animal life frequents the numerous lakes and streams in this region, and it is usually possible to see sheep, goats, deer, bears, moose, etc. from the motor-car. Return to the Lodge in ample time for dancing, bridge, etc.

## SPECIAL MOTOR SERVICES

**Medicine Lake — Beaver Lake — Lower Maligne River.** Provided arrangements are made at the Motor Transportation Desk before 9:00 p.m. the evening prior to departure, anglers who wish to fish these waters can leave Jasper Park Lodge at 9:30 a.m. and leave Medicine Lake on return at 7:00 p.m. For this service a charge of \$5.00 per person, minimum two persons, will be made. Should a party make the trip at any time other than the foregoing, an extra charge of \$5.00 for one person, and \$2.50 each for two or more persons, will be made. **If boats, guides, fishing tackle, etc. are required, notice must be given at "Fred Brewster's Rocky Mountain Camps" in the Main Building before 9:00 p.m. the evening prior to departure.**

Every effort commensurate with trail conditions will be made to maintain scheduled times of departure and arrival.

No responsibility will be assumed for the loss on the trail of valuables or personal equipment.

### GUIDE SERVICE

The management recommends that no mountain, saddle, or hiking trip be made without the services of a guide; parties who make trips without one do so at their own risk. The cost of a mounted guide is \$4.00 per half day, and \$7.00 per day. One guide is required for a party numbering up to five persons; an extra one, for more than five persons. Guide charges are pro rata according to the number in the party.

The guides are fully qualified, widely experienced, and thoroughly dependable.

### RATES FOR SADDLE HORSES

*Note: For a horse or guide one day consists of not more than nine (9) hours and not more than twenty (20) miles.*

Horses equipped with either Mexican stock-saddle or English riding-saddle: \$3.00 per half day, and \$5.00 per day. Mountain trips, \$7.00 per day. Special rate of \$35.00 per week for reserved horses.

### SADDLE TRIPS

*NOTE: Slickers are not provided by the Outfitter.*

**Saddle Trip No. 1: Jasper Park Lodge Sawdust Trail** — Graded to a breadth averaging from ten to fifteen feet and sufficiently wide for a party of three to ride abreast, this bridle path, rendered dustless by a generous application of soft sawdust, forms a vast circuit, with the Lodge itself as a centre. The trail leads through pine and fir forests, by lake shore and river bank, skirts the golf-course, and ascends to the bench below Signal Mountain offering from its different vantage points ever-changing vistas of the charming Athabaska Valley. Unquestionably, this is the most beautiful and scenic twelve-mile horseback ride on the Continent. Riding time, 3 hours.

**Saddle Trip No. 2: Maligne Canyon** — The route is over the back trails away from the motor roads and follows the Athabaska Trail, traversing the entire length of Maligne Canyon. A beautiful, easy ride of 12 miles return. Riding time, 3 hours.

**Saddle Trip No. 3: Golf Course and Old Fort Point (Hudson's Bay Table Top)** — The route skirts the greater part of the golf course, proceeds up the Buffalo Prairie Trail to the top of the ridge and out on to Old Fort Point. This trip affords a splendid view of the Athabaska Valley, the Lodge, Mt. Edith Cavell, and the mountains on both sides of the upper river. Distance, seven miles return. Riding time, 2 hours.

**Saddle Trip No. 4: Caledonia Lake** — Fourteen miles return. A small lake lying west of Jasper on a rocky bench above the Miette River, Caledonia Lake is reached by passing through Jasper and following the Miette road to Cabin Creek Bridge. Here the trail branches off and follows the left bank of Cabin Creek. Riding time, 4½ hours.

**Saddle Trip No. 5: Pyramid Lake** — Sixteen miles return. This trail leads the rider through Jasper, ascends the hill to the north, crosses Cottonwood Creek Valley, and then passes along the ridge above Pyramid Lake. Riding time, 5 hours.

**Saddle Trip No. 6: Buffalo Prairie-Wabasso Lake.** Twenty miles return. An interesting trail winding through beautiful scenery. Excellent fishing in the lake waters. Riding time, 5 hours.

**Saddle Trip No. 7: Maligne Lake and Sky Line Trail Trip** — For those who enjoy riding at a high altitude, the return trip from Maligne Lake over the Sky Line Trail offers a new and exhilarating experience. **If snow conditions permit — this trip will be operated between July 10th and August 31st.**

First day — leave Jasper Park Lodge at 9:30 a.m., motor to Medicine Lake, take motor-boat across the lake and proceed by motor-car to Maligne Lake, arriving at 1:00 p. m.

Second day — rest at Maligne Lake Chalet and take scenic motor-boat trip to the upper end of Maligne Lake (34 miles return).

Third day — leave Maligne Lake Chalet at 9:00 a.m. with guide and saddle-horse, cross Maligne River via the saddle horse bridge, follow the Shovel Pass Trail over the Northeast shoulder of Bald Mountain to the Evelyn Creek ford and proceed up the long, easy slope to the summit of Little Shovel Pass at timber line. From the summit of Little Shovel Pass the rider gets a splendid view of the four miles of alpland, to be traversed before making the last climb to the summit of Big Shovel Pass (8,000 ft.). On the banks of a small mountain stream between the passes a stop is made for lunch. An easy descent across the shale slopes brings the rider to the overnight camp at Shovel Pass, — a distance of 14 miles.

Fourth day — the route leads upward from Big Shovel Pass to the Skyline of the Maligne Range and for more than two miles maintains an altitude of eight thousand feet. The high altitude and peculiar location of the trail offers the rider in clear weather a magnificent view of the mountains in all directions. This is, beyond doubt, the most comprehensive panorama obtainable from a saddle. From the skyline a short, rapid descent is made to the basin at the rear of Tekarra Peak. After a short stop here for lunch, the rider continues around the east and north base to the top of Signal Mountain, which overlooks Jasper Park Lodge and the Athabaska Valley. The descent from Signal Mountain to the Lodge is made over the regular Signal Mountain Trail, a distance of 17 miles.

This is a four-day trip. Cost, including boat trip on Maligne Lake and Canvas House accommodation at Maligne Lake Chalet \$104.00, plus Gov. tax 90c. per person; for cabin accommodation, \$108.00, plus Gov. tax 90c. per person.

*In addition to the seven rides described on the preceding page, there are numerous other interesting rides. Full information can be obtained at "Fred Brewster's Rocky Mountain Camps" in the Main Building. For maps, suggestions, and full information, write to "Fred Brewster's Rocky Mountain Camps Limited, Jasper, Alberta".*

## THE MALIGNE DISTRICT

The Maligne district is one of the most interesting in the Park, not only on account of its remarkable canyon as referred to on Page 27, but because of its two beautiful lakes — Medicine and Maligne. The drive to the latter, with boat trip to the head of the lake, provides unforgettable glimpses of the beauty and grandeur of a great mountain world.

Medicine Lake, about 15 miles distant from Jasper Park Lodge and reached by automobile, is five miles long and a little over half a mile wide. Leaving Medicine Lake the road follows the Maligne River, now a tumultuous greenish-white stream of considerable size. Almost ten miles south one catches the first exciting glimpse of the shining tops of the snow peaks surrounding Maligne Lake. On the latter, near the outlet to the river, stands Maligne Lake Chalet. Before the Chalet and extending in a south-easterly direction for seventeen miles, with a breadth varying from two hundred yards to two miles and a shore line of some fifty miles, lies Maligne Lake, the largest glacial-fed body of water in the Canadian Rockies.

The vista from the lower end of Maligne Lake makes up a charming alpine picture, but one must take the boat trip beyond the Narrows, nine miles from the chalet, where the upper part of the lake is revealed, to realize the full glory of this masterpiece, and to understand the praise it has drawn from all mountain lovers who have been fortunate enough to see it.

Beginning with Mount Samson (a jagged peak of ten thousand feet facing the Chalet on the left), the altitude of the peaks forming the Maligne group (Mounts Charlton, Unwin, Warren, Mary Vaux, and Maligne) gradually increases until, in Mount Brazeau, it reaches eleven thousand, three hundred and eighty feet.

The mountains rise precipitously from the lake and are heavily laden with snow and ice. At the south-west end of the lake, farthest from the Chalet, lies a snowfield of considerable size, and leading in a southerly direction towards the Brazeau River district, along the western base of Mount Brazeau, is a high, broad snow pass, affording easy access to this intensely interesting neighbourhood. The mountains in the Maligne Lake district are admirably suited to both ice and rock climbing, and many comparatively easy climbs can be successfully undertaken by the amateur.

The mountains, meadows, and flowers of the alplands will prove of great interest to botanist and naturalist alike. Sheep, goats, caribou, moose, and deer frequent these pastures. The Opal Hills, facing the Chalet on the east, are the home of the sheep and the goat, while the mountain sides overlooking the lake, particularly those about the southeast, are used extensively by the mountain goat as a summer pasture.

### What to do at Maligne Lake

Ride or hike to Maligne Pass, to the top of the Opal Hills, or to the haunt of the caribou at the summit of Bald Mountain.

Take canoe, rowboat, or outboard motor-boat trips on the lake, also a scenic motor-boat trip to the upper end of Maligne Lake, 34 miles return.

Fish for speckled trout in Maligne Lake, Mona Lake, and Maligne River.

Arrangements can be made for summer skiing by applying to Fred Brewster's Rocky Mountain Camps Limited.

The angler who catches the heaviest speckled brook trout receives a gold lapel button, emblematic of the championship of the Maligne River Anglers' Club. The angler taking the second heaviest trout receives a silver button.

### TONQUIN VALLEY

Among the many beauty spots in the Canadian Rockies, none is more outstanding than the Tonquin Valley and that splendid range of mountains which rises along the spiral ridge of the continent from Mount Fraser northward, on the western boundary of Jasper National Park.

Tonquin Valley lies verdant, wide and open, high up on the shoulders of the great ridge that forms the Divide at an elevation of 6,450 feet. Brilliant masses of wild flowers, the vivid greens of the coarse grass, and the dark velvety hue of pines, give the valley a smiling loveliness, which contrasts with and softens the unrelieved majesty of the black and jagged peaks. On every hand, too, are signs of wild life. Its waters are famous for splendid Rainbow trout fishing.

Near the southern end of the valley is a beautiful sheet of water three miles long and about a mile wide, divided by a rocky promontory into two parts, forming what are known as the Amethyst Lakes. Their waters are pale in color with amethyst shadows running from the sides, a color probably due to vegetation, accentuated when seen from a height, which has given them their names.

Forming a great arc from southwest to northwest, the Ramparts stretch along the western side of the valley without a sign of vegetation to relieve their rugged majesty. At all hours the Ramparts are impressive, but they are most splendid at sundown.

This beautiful valley is second to none in its interest to the angler, the alpinist, and the photographer.

The main trail to the Tonquin Valley is in from View Point, the latter being sixteen miles from Jasper on the Cavell motor road. The route is along the northern slopes of Mount Sorrow to Verdant Creek. Crossing the latter, it traverses the base of the northeast corner of Throne Mountain and, at a distance of some four miles from the highway, crosses the Astoria River. The trail then follows the northwestern bank of the Astoria for two and one-half miles before swinging to the right. After a very short climb to open country, it crosses the alplands to the Amethyst Lakes, a distance of three and one-half miles.

#### Transportation Schedule for Tonquin Valley
